THE UNITED STATES NAVAL ACADEMY

HISTORICAL SKETCH

The United States Naval Academy is an institution of higher education conducted by the Navy Department for the purpose of preparing young men to enter the lowest commissioned ranks of the Navy and Marine Corps. It was founded as the Naval School in 1845 by the Honorable George Bancroft, historian, educator, and Secretary of the Navy, to improve the then unsatisfactory methods of instructing midshipmen. It was located at Annapolis, Md., on the site occupied by Fort Severn, which was given up for the purpose by the War Department. At first the course was 5 years, of which only the first and last were spent at the school, the intervening 3 years being spent on board ships on active service. It was reorganized in 1850–51 as the United States Naval Academy, with a course of study of 4 consecutive years. A summer practice cruise replaced the omitted sea service, and gave better opportunities for intensive training. During the Civil War the Academy was moved to Newport, R. I., but was brought back to Annapolis in 1865, where it has since remained. In the following years great improvements were effected in the organization and curriculum. From 1873 to 1912 the academic course was 6 years, the last 2 of which were spent at sea. In 1912 the course was fixed at 4 years, the 2 years at sea being omitted. During the Civil, Spanish-American, and World Wars the course was shortened to provide more officers for the fleets. During the World War large classes of reserve officers were trained at the Academy.

The students undergoing the course at the Naval Academy have been called, in turn, acting midshipmen, midshipmen, cadet midshipmen and cadet engineers, naval cadets, and since the act of Congress approved July 1, 1902, midshipmen. A midshipman is an officer in a qualified sense. He is appointed a midshipman in the Navy, not merely at the Naval Academy, is subject to the orders and regulations of the Navy Department, but does not now participate in the benefits of retirement or longevity. He may be ordered to sea duty, although this is not customary except on practice cruises. He ranks after a commissioned warrant officer, and ahead of a warrant officer. Upon graduation he may be commissioned an ensign in the line of the Navy, or a second lieutenant in the Marine Corps.

Under the Superintendent, the Academy is organized into the following departments: The executive department headed by the commandant of midshipmen, who is charged with interior discipline, drills, and tactical instruction; and the academic departments of seamanship and navigation, ordnance and gunnery, marine engineering, mathematics, electrical engineering, English, history, and government, languages, hygiene, and physical training. At present about 27 percent of the academic work is devoted to the so-called "cultural" subjects, about 51 percent to mathematics and the sciences, pure and applied, and about 22 percent to the professional subjects. Drill periods and summer terms ashore and afloat, however, are almost entirely devoted to professional subjects and practical work in marine, aviation, and electrical engineering, which change the above figures materially.

For many years the three upper classes were sent on practice cruises during June, July, and August of each year, for practical instruction in navigation, seamanship, electrical engineering, marine engineering, gunnery, and radio. In 1929 a second-class summer was established, the midshipmen of that class being retained at the Naval Academy for practical instruction. The second-class summer course now includes aviation and engineering subjects, and academic instruction in the departments of seamanship and navigation, English, history, and government, and electrical engineering. In 1939 the second-class summer schedule included three destroyer cruises on each of which one-third of the class was sent for a period of 4 weeks.

Beginning in the year 1899, following an appropriation of $10,000,000 by Congress for the purpose, the Naval Academy was almost completely rebuilt in the Italian Renaissance style after the designs of the architect, Mr. Ernest Flagg, of New York. The grounds of the Academy proper now comprise 225 acres along the west bank of the Severn River, on which are 150 major buildings, representing an investment of about $35,000,000.

An act of Congress approved on May 25, 1933, authorized the Superintendent to confer the degree of bachelor of science upon all graduates from and after the date of the accrediting of the Academy by the Association of American Universities. That association placed the Naval Academy on its approved list on October 25, 1930, and graduates commencing with the class of 1931 became eligible for the degree. By virtue of an act of Congress approved July 8, 1937, the Superintendent is now authorized to confer the degree upon all living graduates.

The total number of graduates of the United States Naval Academy, including the class of 1939, is 13,800.

The administration of the Naval Academy is under the Bureau of Navigation, Navy Department, Washington, D. C. Entrance requirements are fully set forth in the pamphlet Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen and Sample Examination Papers, copies of which may be obtained by application to the Bureau of Navigation. A description of the course of instruction is contained in the pamphlet Catalog of Course of Instruction at the United States Naval Academy, Annapolis, Md., copies of which may be had by applying to the Academy.

Officer-of-the-deck spyglass, for second place in interclass sailing. Midshipman Robert Manton Kunhardt, class of 1942, was awarded this prize.

HARVARD SHIELD

The name of the first battalion, highest point winner in the intra-mural athletic contests during the past year, was engraved on the "Harvard Shield," which was presented by the Associated Harvard Clubs to be awarded annually for this purpose.

CRENSHAW CUP

The name of Midshipman Harold Lee Graham, Jr., class of 1941, was inscribed on the Crenshaw memorial cup for 1939. This cup was presented by Mr. E. A. Crenshaw (father of Midshipman Thomas Homer Crenshaw, class of 1923, deceased), and upon it is to be inscribed each year the name of the coxswain of that 8-oared crew winning the greatest number of races for that year.

LYSISTRATA CHALLENGE CUP

During the summer practice cruise, 1939, the race for the Lysistrata Challenge Cup was held in the Severn River, and the crews finished in the following order: *Texas*, *Arkansas*, and *New York*.

This cup was a gift to the Naval Academy made in 1910 by James Gordon Bennett. It is to be competed for annually in intership competition between pulling boats manned by midshipmen. The name of the ship whose crew wins is engraved on the cup.
